La description

Crowbar/Wrecking Bar - 18"

Description	Hexagonal or octagonal section with 1/2" diameter (shortest section) (1.27cm). Hooked on one end with a claw, and flat with a chisel end at the other end.
Thickness	Protected against oxidation.
Material	High carbon steel.
Quality of make	The bar shall be manufactured from one piece of steel. Cutting ends of the bars may be rounded off and finished ground. Overall good finish without any imperfections like cracks, burrs, pits, scales etc. and such other physical defects.
Strength setting	When set up in a leveraging position to remove a fixed bolt it is not possible to deform the bar with human strength.
